

# Resolution & Petition for Action on Climate Change in Georgia

WHEREAS Georgia enjoys coastal natural resources of enormous value to its citizens, and  
WHEREAS these resources are a vital source of diverse marine life essential to our Nation,  
WHEREAS Georgia attracts millions of visitors annually who are drawn to our coast's natural, cultural, and historic amenities, and who support thousands of jobs here,  
WHEREAS Georgia's ports are a significant source of commerce and economic vitality, and  
WHEREAS Georgia's agricultural sector is a major economic force benefiting the state, and  
WHEREAS Georgia's natural resources, public infrastructure, coastal communities, and agricultural sector are vulnerable to changes in weather patterns caused by global trends, and  
WHEREAS an overwhelming number of qualified scientists have reported that the earth's climate is warming and that human activities are largely contributing to that trend, and  
WHEREAS the governors of our neighboring states of South Carolina and Florida have initiated climate change action programs to address these issues, and  
WHEREAS Georgia is in an advantageous position to benefit from the vast economic and employment potential of alternatives fuels such a fiber-based ethanol and clean alternative power sources such as wind, solar and tidal energy; and  
WHEREAS these new technologies will not only create jobs and investment opportunities but they will save the government, taxpayers, and consumers millions of dollars in the future cost of energy, health services, and environmental remediation;  
NOW, THEREFORE, BE IT RESOLVED that we, the undersigned, strongly advise that Governor Perdue commit Georgia to developing a strategy to reduce threats to our citizens from climate change while promoting our state as a leader in energy independence and safety;  
AND BE IT FURTHER RESOLVED that we urge the Governor, our legislators, and our fellow citizens to ask Congress to adopt and implement the Safe Climate Act as soon as possible.
